@Pitch In For Baseball & Softball

@Pitch In For Baseball & Softball

Dear Pitch In For Baseball & Softball Family:

Since 2005, Pitch In For Baseball & Softball has connected and rallied fans of baseball and softball to help ensure that equipment is never a barrier to play for children around the globe. Our collaborative efforts have helped nearly 1,000,000 children play ball in more than 110 countries worldwide and every state in the U.S. We have reveled in hearing the stories and seeing the pictures of the boys and girls whose lives are better because someone cares, because we care. We genuinely believe in the magic of the game and its ability to change lives.

For the past three years, PIFBS has averaged more than 600 projects helping nearly 100,000 children play ball on an annual basis. When 2020 began, we were on course to serve a record number of children, and then life took an unexpected hard left. The country shut down, people transitioned to work from home, students began distance learning, and cities cancelled all social and group activities indefinitely, leaving everyone with a greater sense of uncertainty. Pitch In For Baseball & Softball's offices closed on Friday, March 13th and our team was not back together again until after Independence Day.

Pitch In For Baseball & Softball has learned so much over the past 10 months. The pandemic has not only had a global impact, but it has affected each and every one of us personally. It has taken a toll on our mental health and our connectivity to family and friends. We have seen children struggle with the lack of connection, yet we have also seen their resilience and have learned to appreciate any moment of happiness, laughter, and smiles. We see with even greater clarity the impact of sport and play on children and how lack of equipment impacts participation more than ever. In this world where we aren't allowed to be close to others, baseball and softball continue to offer a wonderful opportunity to give kids a chance to have some moments of normalcy.

At the time of closure, PIFBS had 200 pending equipment grant applications and when we returned, we had nearly 300 requests for support. Despite the halted play and abbreviated seasons, PIFBS distributed the same amount of equipment as previous years due to the increased pandemic related needs and helped 90,000 children play ball through 500 projects. Most leagues are struggling financially due to refunding registration fees and needing to purchase sanitation supplies and PPE, leaving few dollars for equipment. In addition, leagues anticipate an even greater number of scholarship requests for 2021 due to the economic fallout of COVID.

As states and communities reopened, leagues scrambled to get enough equipment to start practices and to meet the CDC's guidelines for safe return to play, which prohibits equipment sharing, resulting in grant requests 2-3 times larger than pre-pandemic. Now every child must have their own glove, helmet, and bat (or batting gloves). Leagues that were able to play were predominately in suburban communities as many urban programs utilize city resources, which were closed for most of 2020, making it so that inner city children did not have equal access to resources and programs. Add to that the new CDC guidelines that prohibit sharing of equipment, and the needs are even greater than ever before.

Despite the state of the world, there have been a lot of bright spots. The entire Pitch In For Baseball & Softball team has been blown away by the spirit of community and collaboration. There has been an outpouring of support and passion for making sure that this game we all love is available to every child, equally. We saw an outpouring of donations of dollars and equipment with a record number of donors, which made it possible for us to meet the growing equipment needs. We spent time connecting with and getting to know our grantees, donors, and the children we have helped over the years. We also deepened our work with partners like the Reds Community Fund, Little League International, and Wilson Sporting Goods to ensure that kids have the gear they need to return to play safely. We forged new partnerships with USA Softball that will endure and grow for years to come.

Thank you for hanging in there with us. Your support means more to us than we will ever be able to express. Thank you for caring about kids. Here's to a brighter 2021.

Sincerely,

A handwritten signature in black ink, appearing to read "Meredith Kim".

Meredith Kim, CEO

OUR MISSION

Pitch In For Baseball & Softball® is a registered 501(c)(3), not for profit organization that helps give the gift of play and contributes to positive youth development by providing equipment to children around the world. PIFBS reduces barriers to play and promotes youth development by providing equipment directly to leagues, schools, and organizations around the world to start, continue, and/or expand their programs.

Over the past 15+ years, PIFBS has helped nearly 1 million kids in every state in the U.S. and 110 countries, completing approximately 600 projects annually across the globe.

On September 19th, 2020, Pitch In For Baseball & Softball celebrated its 15th anniversary of becoming a 501(c)(3). In that time, PIFBS has helped nearly 1 million kids have the chance to play ball.

CORE PROGRAMS

Domestic and International Equipment Grants—These grants are designed to help leagues, teams, and community organizations around the globe get the proper equipment to play baseball and softball. Grantees complete required annual reporting which details the impact of the donation. Our strategic partnerships help us reach the most under-resourced communities around the world.

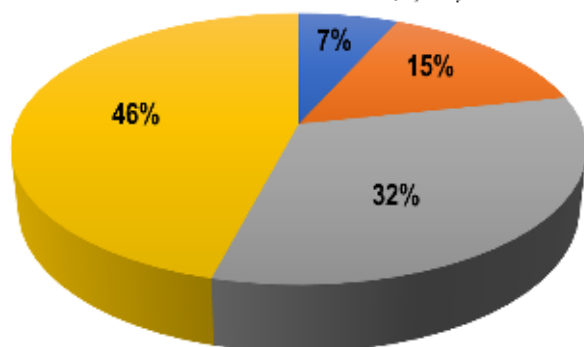

School-Based Program—Launched in 2008, our School-Based Program helps schools/districts stretch limited budgets, reduce participation fees, and shift funds to other areas such as transportation. PIFBS offers School-Based Programs in Philadelphia, Northern Kentucky, Minneapolis/St. Paul, and Chicago.

Disaster Relief Program—In times of tragedy, children are often the most affected. Baseball and softball can help to restore a sense of normalcy amidst the chaos. PIFBS has rebuilt entire leagues and helped thousands of kids start their seasons on time. PIFBS has assisted with relief efforts on the New York/New Jersey shoreline following Hurricane Sandy; Joplin, MO; the Gulf Coast region; Japan; Houston; Puerto Rico; and more.

Youth Service Learning—Whether for school service learning, Bar/Bat mitzvahs, Eagle Scouts, or for fun, nearly 200 kids choose PIFBS each year as their charitable partner. About 60% of the equipment PIFBS gives away each year comes from the efforts of motivated, caring kids who run collections and fundraise on PIFBS' behalf.

DOMESTIC & INTERNATIONAL PROGRAMS

Through our general equipment grant application process, Pitch In For Baseball & Softball distributes new and gently used gear to groups throughout the United States to help increase youth participation in baseball/softball. PIFBS strives to make the sport accessible to all kids regardless of financial means. Through our international equipment grant application process, PIFBS gets gear to groups outside of the United States where interest in baseball/softball is growing rapidly. In many countries, baseball and softball equipment is very expensive or is not available to purchase at all, and PIFBS provides the equipment needed to start their programs. PIFBS fulfills all equipment grant requests that we receive from eligible applicants.

Our strategic partners such as Little League and Major League Baseball's Reviving Baseball in Inner Cities (RBI) program help ensure that we are reaching the most under-resourced communities and enable us to send gear abroad in a cost-effective manner.

Ann Lynch Elementary School, Las Vegas, NV

"Diego is the reason I wanted to start a baseball program at Lynch ES. The previous year I handed out flyers for the local Little League to help boost their numbers and expose these students to baseball. Diego was super excited about it, he said he played baseball with his family.

When I asked later how baseball was going, he said he couldn't join because his family couldn't afford it. Thanks to Pitch in for Baseball & Softball, I was able to start this program at our school and provide a way for Diego to play." -Alex Alger, Coach

West Haven Little League, West Haven, CT

"Due to COVID guidelines all players must now provide their own glove, bat and helmet. Families were financially strained and could not afford equipment which often means removing their child from the roster.

This equipment relieved the financial strain on the parents. On behalf of the West Haven Little League, thank you so much for your generous donation. It kept our kids on the field."

-Carrie Malangone, Co-President

Abington Little League, Clarks Summit, PA

Ben is now a second year player after watching his brother play for the past couple of years.

Although he is usually quiet and shy, Ben was very happy to receive a new helmet to use! This season, Ben got really into his games and even attempted kid pitch during a game for the first time. His biggest accomplishment was getting two hits in his last game of the season.

Bhutan Baseball & Softball Kingdom of Bhutan

In July, we sent gloves, baseballs, Easton batting helmets and more to the Bhutan National Baseball League to help grow the game in the Kingdom of Bhutan, located in the Eastern Himalaya Mountains.

The Bhutan National Baseball League includes youth practices and games, local club teams, the Four Friends interscholastic league, Adult National League, and more.

Give and Go Baseball, Philadelphia, PA

In partnership with the 3-2 Count Foundation, PIFBS supported Give and Go Baseball headed by Program Director Andre Wright. Andre brought his 4-year-old son, Ace, to the first fall training session where they gave out the donated gear to the kids. The joy on the kids' faces gave Ace all the inspiration he needed to try his hand at baseball.

"Too many young, interested kids want to play the game and be part of a team but get discouraged when they don't have proper equipment. There's a new student named Terrell aka 'Chubbs' who recently joined baseball but never had the confidence to try the game. Now that he has cleats, his own glove, and batting gloves, he's been practicing on his own, engaging more with his father, and according to his father he's been more disciplined at home. Belonging is very important for kids ages 9 -12 and this story is a great example of the impact of being included and belonging to a team."

- Andre Wright, Program Director

Dimond Little League Kiev, Ukraine

Dimond Little League in the Ukraine has 40 players from ages 7-15. The league received equipment from PIFBS in October of 2020, and held indoor practices for their players through the end of the year.

"The first glove has already found its owner. This is a boy who has no parents and who lives with an uncle. And they have no money at all for anything. They don't even have enough money for food. Now this kid has a new Easton glove and his joy knows no bounds!"

- Artem Garan, President

Somerset Little League

Mohawk Youth Baseball

PARTNER PROGRAMS

Pitch In For Baseball & Softball is proud to work with industry leaders who have enabled us to expand our programming and help more children around the world. These partners are instrumental in allowing us to grow our impact by making generous financial contributions, giving large donations of in-kind product, and connecting us to groups in need of assistance.

The programs on this page, along with 16 others, received a grant funded by Pirates Charities and the TULL Family Foundation, which allowed leagues to provide equipment for safe play, assistance for families, and a positive outlet for kids facing challenges due to the COVID-19 pandemic. The funded program impacted more than 2,000 boys and girls in leagues in Pennsylvania, and one program in West Virginia. PIFBS leads this effort by managing the application process, coordinating distribution events, securing product, and reporting on the impact.

Tull Family Foundation

Freeport Area Softball, Freeport, PA

Hannah was worried she wouldn't be as good at catching as she used to be. She had been a catcher for five years, but the previous summer Hannah found out that she had kidney reflux disease. She had to have surgery and miss the softball season. Hannah had also outgrown her old catchers gear. With donated equipment through PIFBS and the Pirates Charities and TULL Family Foundation funded program, Freeport was able to give Hannah a new set of gear and a glove to use. She not only came back to play with the 12U team this summer, she also got to play in the 14U bracket as a substitute player. With encouragement from her coaches and teammates, Hannah is gaining her confidence back.

Shaler Area Little League, Glenshaw, PA

Thanks to an equipment grant funded by Pirates Charities and the TULL Family Foundation, Shaler Area Little League was able to provide assistance to families in the league who were struggling to make ends meet. Players were required to have their own helmets per CDC guidelines, but many families were dealing with unemployment and uncertainty. The grant allowed the league to issue helmets for players to check out like library books and use for their entire stay with the league.

Homer-Center High School, Homer City, PA

Once Homer-Center High School baseball restarted after the COVID-19 shutdown, each student-athlete was required to have his own bat and helmet to prevent the spread of the virus. The grant enabled the school to provide players their own equipment, saving families hundreds of dollars. One student had been academically ineligible for the 2019 season, but worked really hard in the classroom to get himself back on the field. He really wanted to be a catcher but didn't have the gear to play. When the season was finally able to start, the school provided him with the equipment he needed and the opportunity he worked so hard for.

Prior to the COVID-19 pandemic, PIFBS teamed up with the New York Mets to hold an equipment distribution event at the Mets Spring Training home of Port St. Lucie, FL. All told, 3,700 pieces of equipment were donated and distributed to 70 local baseball and softball teams across six leagues.

The donations were made in partnership with the Mets to assist baseball and softball teams in Port St. Lucie, Vero Beach, and Fort Pierce, helping more than 1,000 children have access to the game. The donated gear included gloves, helmets, catchers gear, catchers mitts, bats, baseballs and softballs, and a team bag.

After a planned distribution event in New York was delayed due to the shutdown, the Mets handed out bags of equipment received through PIFBS in a drive-through event in late spring. In August, the Mets also hosted a distribution event to pass out gloves for leagues in the New York area.

2020 marked the third year of partnership between PIFBS and the Mets. The Mets aim to help support youth baseball and softball in every community they're a part of, and have partnered with PIFBS for projects in New York, Port St. Lucie, and Boca Chica, Dominican Republic. The Mets have invested more than \$350,000 to help support youth baseball and softball.

South Scranton Little League

The Matsui 55 Baseball Foundation, a nonprofit founded by former New York Yankees All-Star Hideki Matsui, partnered with Pitch In For Baseball & Softball for the second straight year. The program provided equipment for three leagues in 2020 — East Hartford Little League in Connecticut, South Scranton Little League in Pennsylvania, and Ironbound Little League in New Jersey.

Thanks to the support of Fort Myers-area PIFBS donors Dave and Cheryl Copham, in early 2020 PIFBS and the Minnesota Twins held an equipment distribution event at the Twins Spring Training home in Fort Myers, Florida. The event served to donate approximately \$36,000 worth of baseball and softball gear to benefit 1,250 children across 80 teams in Lee County.

Kids, coaches, and families were invited to participate in the event on the Twins first day of Spring Training as well as the Twins open house for the local community. Minor league players and Twins mascot T.C. joined in on the fun, helping the kids open the gear and try it out for the first time.

Cincinnati Reds RBI

In July 2020, PIFBS announced an agreement to become an Official Service Partner of the MLB-MLBPA Youth Development Foundation, providing baseball and softball equipment to help increase youth participation and expand access to baseball and softball.

The MLB-MLBPA Youth Development Foundation (YDF) is a joint initiative between Major League Baseball and the Major League Baseball Players Association.

The Foundation delivers grants to organizations both in the United States and internationally that increase opportunities for youth, particularly underrepresented boys and girls, and/or those located in underserved communities. Groups may apply for an equipment grant through MLB-MLBPA YDF, and if approved, those equipment needs are fulfilled through PIFBS.

Pitch In For Baseball & Softball serves as one of the equipment partners to Major League Baseball's RBI (Reviving Baseball in Inner Cities) program to help grow and increase participation across the United States. In 2020, Pitch In For Baseball & Softball distributed 74 team kits to RBI teams.

RBI is a youth outreach program designed to provide access to the game and develop interest in baseball and softball among underserved youth, promote greater inclusion of youth with diverse backgrounds into the mainstream of the game, and increase the number of talented athletes prepared to play in college and professionally.

Johnson Board of Education

San Francisco Giants player Mauricio Dubon has been working with PIFBS during his past three off-seasons to get baseball equipment to kids in Honduras.

Dubon became the first native Honduran to ever reach the Major Leagues when he made his MLB debut in 2019. Later that year, PIFBS helped Dubon provide gear to more than 100 children in Liga Roberto Valenzuela Little League, and Dubon traveled to Honduras to deliver the equipment to the children.

Dubon also took time before the MLB season began to talk with us about his charitable efforts on our PIFBS Webcast, a new YouTube series launched in 2020.

"I remember we had like two helmets for a whole baseball team, and we had to share it. So right now the main goal is equipping those kids - their own helmet, their own bats - so they can go out there and have some fun."

- Mauricio Dubon

In September, PIFBS sent gear to two baseball leagues as part of a new project funded by Signature Bank.

The equipment, valued at \$6,000, would benefit approximately 1,200 children across 100 teams in Van Nest Little League in the Bronx, and Half Hollow Hills Little League in Melville, NY.

Van Nest Little League

PARTICIPATING PARTNERS

SCHOOL-BASED PROGRAMS

Pitch In For Baseball & Softball's School-Based Program helps schools and districts in under-resourced communities start, continue, or expand their baseball and softball programs and stretch limited budgets. Starting in 2008 with the Philadelphia School District, PIFBS began helping children not only get on the field, but also increase their attendance and GPA as a result of playing ball. Many kids joining our programs have never played baseball or softball before. Our School-Based Programs are currently supported in part by the Minnesota Twins, Springfield Township Rotary, the Cincinnati Reds, Wilson Sporting Goods, and the Philadelphia Phillies.

Minneapolis/St. Paul

Prior to the COVID-19 shutdown in March, the Minnesota Twins Community Fund and PIFBS partnered for an equipment distribution event held at Target Field in Minneapolis. The event served to distribute gear to 57 baseball and softball teams as part of the Minneapolis/St. Paul School-Based Program, which provides equipment for middle school and high school teams in the Minneapolis and St. Paul school districts. The gear was set to benefit more than 800 kids prior to the cancellation of the season, but will help aid in restarting the programs in 2021.

Philadelphia

In November, PIFBS hosted a drive-through equipment distribution event for Philadelphia schools who were approved for a grant, funded by the Philadelphia Phillies and Springfield Township Rotary. The PIFBS staff was joined by rotary club members and Phillies Director of Youth Baseball Development Jon Joaquin to hand out nearly \$100,000 worth of gear, including baseballs, BBCOR bats, catchers gear, gloves, cleats, and team bags. The event safely distributed gear to 75 teams, which will benefit approximately 1,300 children across the Philadelphia area.

Northern Kentucky

Thanks to the Cincinnati Reds and St. Elizabeth Healthcare, PIFBS distributed gear to 140 teams in Northern Kentucky in January of 2020. Approximately 2,700 pieces of equipment, valued at \$55,000, were given to local school programs, which will help 2,000 kids get on the field once school baseball and softball programs are able to resume.

DONOR HIGHLIGHTS

About 60% of the equipment that PIFBS has available to distribute comes from caring kids, teams, and companies across the country who want to give other kids a chance to play baseball and softball. Donations of equipment help to keep our costs low and enable us to support more teams each year. PIFBS can accept any piece of baseball or softball equipment that is in safe, playable condition. Our most-needed items include:

- Gloves (12"+)
- Baseballs/softballs
- BBCOR/USA stamped bats
- Catcher's equipment
- Softball equipment
- Helmets

Above left: **Jake** donated to us in October after collecting gear in the Scarsdale, NY area. His donation included bats, balls, catcher's gear and more.

Above right: **Maddie** collected softball equipment in Connecticut and visited us in August to donate balls, bats, gloves, and helmets.

Madi

Madi's donation to PIFBS in August was the largest collection of softball equipment we have ever received! Before Madi's donation, PIFBS had almost no helmets available in our warehouse. Her contribution single-handedly filled our helmet bins.

Madi started collecting equipment in her New Jersey community in early 2020, and received so much gear that she and her family had to rent a U-Haul to deliver it. Madi enjoys playing softball, and was excited to help give other kids the chance to play.

Patrick & Peter

Patrick and Peter, a pair of high school students in Houston, TX, ran an equipment drive over the summer. They collected more than 500 pieces of equipment to donate, helping more kids have the chance to play baseball and find relief from the challenges of the COVID-19 pandemic.

"It's a difficult world we're living in, so we want kids to still be able to have that opportunity to play baseball, even in the midst of all this, because baseball has been such a great escape for us, so we'd like those kids to feel the same way."

- Patrick F.

Michael

From Kinnelon, NJ, Michael donated to PIFBS three times in 2020, going from town to town to collect equipment. He even rallied help from other kids in the area, AJ and Jake, who collected gear from their schools and towns. Michael's love for the game of baseball has motivated him to visit local leagues, programs, and communities in order to collect more equipment to donate.

Jack

Jack ran a collection drive and dropped off 100+ pieces of equipment to our LA warehouse, including gloves, baseballs, softballs, helmets, bats, cleats, and more.

"I want every player who wants to play baseball to have the chance to play the game I love so much."

Katie

In early 2020, Katie collected softball gear for PIFBS and donated to us for the third year in a row. Beginning as a school service project in 2018, Katie has collected hundreds of pieces of equipment to donate, and members of her travel team, the Lady Ravens, chipped in as well! Katie began her fourth project for PIFBS in January of 2021.

Diamond Sports contributed a generous donation of nearly 200 left-hand throw gloves in September. Proper gloves can be hard to come by for left-handed kids.

New Balance sent us nearly 700 pairs of cleats and turf shoes, helping hundreds of children and families who struggle to get the gear they need to play ball.

Wilson Sporting Goods has continued to support our mission of providing access to the game for underprivileged youth. Pictured at right is a donation of DeMarini and Louisville Slugger bats that the company sent to us in October.
